To Whom it may concern

In September 2007, Future Systems was appointed by Projects and Industrial Engineering to assist them with their Business Management System.

In September 2008, Projects and Industrial Engineering was certified by DEKRA for complying with ISO 9001:2000. Projects and Industrial Engineering were proud to boast that they received zero findings during this audit.

In September 2009, Projects and Industrial Engineering was certified by DEKRA for complying with ISO 9001:2008. Yet again, Projects and Industrial Engineering were proud to boast that they received zero findings during this surveillance audit.

The above accomplishments serve as evidence that Projects and Industrial Engineering has a "World Class System" in place with excellent Business practices.

Future Systems is proud to be associated with Projects and Industrial Engineering.

Thanks & Regards,

Tonja Jolly
